# 105- Practical Programming Assignments

Roll Numbers: 1001 – 1065
Each student has 15 unique program definitions.

## Roll No: 1001

Q1: Check whether a number is strong

Q2: Convert kilometers to miles

Q3: Convert miles to kilometers

Q4: Convert meters to centimeters

Q5: Print the first N even numbers

Q6: Check whether a number is a perfect square

Q7: Check whether a number is perfect

Q8: Compute the sum of elements in a 1D array

Q9: Compute the sum of even elements in an array

Q10: Count vowels in a string

Q11: Calculate the circumference of a circle

Q12: Reverse words in a string

Q13: Subtract two matrices

Q14: Print the first N natural numbers in reverse

Q15: Find the second largest element in an array

## Roll No: 1002

Q1: Compute factorial of a number

Q2: Compute the product of elements in a 1D array

Q3: Convert a string to uppercase

Q4: Concatenate two strings

Q5: Check whether a number is palindrome

Q6: Find the smallest of three numbers

Q7: Print the first N odd numbers

Q8: Convert Fahrenheit to Celsius

Q9: Convert a string to lowercase

Q10: Count consonants in a string

Q11: Convert miles to kilometers

Q12: Convert meters to centimeters

Q13: Compute the sum of digits of a number

Q14: Find the smallest element in a 1D array

Q15: Compute the LCM of two numbers

## Roll No: 1003

Q1: Compare lengths of two strings

Q2: Add two matrices

Q3: Check whether a number is perfect

Q4: Compute the product of elements in a 1D array

Q5: Print the first N even numbers

Q6: Compare two strings

Q7: Compute the LCM of two numbers

Q8: Calculate the perimeter of a rectangle

Q9: Find the smallest of three numbers

Q10: Compute factorial using recursion

Q11: Check whether a number is Armstrong

Q12: Check whether a number is a prime palindrome

Q13: Print the first N odd numbers

Q14: Compute factorial of a number

Q15: Convert Fahrenheit to Celsius

## Roll No: 1004

Q1: Convert a string to uppercase

Q2: Convert miles to kilometers

Q3: Print the first N even numbers

Q4: Concatenate two strings

Q5: Multiply two matrices

Q6: Compute the product of elements in a 1D array

Q7: Find the largest of five numbers

Q8: Convert all vowels in a string to uppercase

Q9: Delete an element from an array

Q10: Find the largest element in a 1D array

Q11: Count consonants in a string

Q12: Print the first N natural numbers in reverse

Q13: Calculate the area of a rectangle

Q14: Count the number of words in a string

Q15: Check whether a number is strong

## Roll No: 1005

Q1: Find the second largest element in an array

Q2: Compute the LCM of two numbers

Q3: Find the smallest element in a 1D array

Q4: Convert a string to uppercase

Q5: Calculate the circumference of a circle

Q6: Compare lengths of two strings

Q7: Compute factorial using recursion

Q8: Convert a string to lowercase

Q9: Insert an element at a specific position in an array

Q10: Search for an element in an array

Q11: Print first N multiples of a number

Q12: Multiply two matrices

Q13: Check whether a number is prime

Q14: Compute the sum of digits of a number

Q15: Convert Fahrenheit to Celsius

## Roll No: 1006

Q1: Compute the GCD of two numbers

Q2: Concatenate two strings

Q3: Find the smallest of three numbers

Q4: Check whether a number is palindrome

Q5: Search for an element in an array

Q6: Check whether a number is a perfect square

Q7: Check whether a number is Armstrong

Q8: Compute the sum of even elements in an array

Q9: Convert a string to lowercase

Q10: Calculate the area of a triangle

Q11: Find the largest element in a 1D array

Q12: Calculate the perimeter of a square

Q13: Find the largest of three numbers

Q14: Calculate the perimeter of a rectangle

Q15: Find the largest of five numbers

## Roll No: 1007

Q1: Convert meters to centimeters

Q2: Check whether a number is Armstrong

Q3: Delete an element from an array

Q4: Insert an element at a specific position in an array

Q5: Print the first N odd numbers

Q6: Compare lengths of two strings

Q7: Compute the sum of digits of a number

Q8: Compute the GCD of two numbers

Q9: Add two matrices

Q10: Count vowels in a string

Q11: Find the largest of five numbers

Q12: Convert a string to uppercase

Q13: Compute the LCM of two numbers

Q14: Find the smallest of three numbers

Q15: Compare two strings

## Roll No: 1008

Q1: Compute the sum of elements in a 1D array

Q2: Calculate the circumference of a circle

Q3: Find the smallest element in a 1D array

Q4: Find the largest element in a 1D array

Q5: Find the smallest of three numbers

Q6: Convert a string to uppercase

Q7: Print first N multiples of a number

Q8: Convert Fahrenheit to Celsius

Q9: Print the first N natural numbers

Q10: Insert an element at a specific position in an array

Q11: Convert meters to centimeters

Q12: Compute the GCD of two numbers

Q13: Find the smallest of four numbers

Q14: Convert all vowels in a string to uppercase

Q15: Check whether a number is strong

## Roll No: 1009

Q1: Convert Fahrenheit to Celsius

Q2: Compute factorial using recursion

Q3: Find the second largest element in an array

Q4: Convert Celsius to Fahrenheit

Q5: Count vowels in a string

Q6: Calculate the area of a triangle

Q7: Print the first N natural numbers in reverse

Q8: Find the largest of three numbers

Q9: Find the smallest of three numbers

Q10: Reverse words in a string

Q11: Convert a string to uppercase

Q12: Compute the product of elements in a 1D array

Q13: Delete an element from an array

Q14: Print the first N even numbers

Q15: Print first N multiples of a number

## Roll No: 1010

Q1: Print the first N even numbers

Q2: Multiply two matrices

Q3: Convert all vowels in a string to uppercase

Q4: Count the number of words in a string

Q5: Check whether a number is Armstrong

Q6: Reverse words in a string

Q7: Convert miles to kilometers

Q8: Count consonants in a string

Q9: Search for an element in an array

Q10: Find the largest of three numbers

Q11: Find the smallest of three numbers

Q12: Convert a string to lowercase

Q13: Compute the GCD of two numbers

Q14: Compute factorial using recursion

Q15: Concatenate two strings

## Roll No: 1011

Q1: Calculate the perimeter of a square

Q2: Find the largest of three numbers

Q3: Print the first N even numbers

Q4: Calculate the area of a rectangle

Q5: Find the largest element in a 1D array

Q6: Check whether a number is a perfect square

Q7: Print the first N natural numbers

Q8: Check whether a number is perfect

Q9: Print the first N odd numbers

Q10: Find the largest of five numbers

Q11: Compute the GCD of two numbers

Q12: Convert miles to kilometers

Q13: Convert Celsius to Fahrenheit

Q14: Check whether a number is a prime palindrome

Q15: Reverse words in a string

## Roll No: 1012

Q1: Search for an element in an array

Q2: Convert a string to lowercase

Q3: Check whether a number is a prime palindrome

Q4: Insert an element at a specific position in an array

Q5: Convert Celsius to Fahrenheit

Q6: Convert all vowels in a string to uppercase

Q7: Compute the sum of even elements in an array

Q8: Compute the sum of digits of a number

Q9: Print the first N even numbers

Q10: Compute the GCD of two numbers

Q11: Find the largest element in a 1D array

Q12: Check whether a number is palindrome

Q13: Print the first N natural numbers in reverse

Q14: Find the second largest element in an array

Q15: Concatenate two strings

## Roll No: 1013

Q1: Convert miles to kilometers

Q2: Compute the sum of even elements in an array

Q3: Print the first N natural numbers in reverse

Q4: Reverse a given string

Q5: Convert Fahrenheit to Celsius

Q6: Subtract two matrices

Q7: Reverse words in a string

Q8: Compute the product of elements in a 1D array

Q9: Convert a string to lowercase

Q10: Compute the LCM of two numbers

Q11: Compute factorial of a number

Q12: Find the largest element in a 1D array

Q13: Check whether a number is a perfect square

Q14: Check whether a number is perfect

Q15: Check whether a number is Armstrong

## Roll No: 1014

Q1: Find the second largest element in an array

Done Q2: Reverse a given string

Done Q3: Find the largest of four numbers

Q4: Print the first N even numbers

Done Q5: Subtract two matrices

Q6: Check whether a number is perfect

Q7: Count vowels in a string

Q8: Calculate the circumference of a circle

Q9: Delete an element from an array

Q10: Convert a string to lowercase

Q11: Search for an element in an array

Q12: Check whether a number is prime

Done Q13: Add two matrices

Q14: Count the number of words in a string

Done Q15: Multiply two matrices

## Roll No: 1015

Q1: Convert meters to centimeters

Q2: Convert Fahrenheit to Celsius

Q3: Print the first N natural numbers

Q4: Check whether a number is Armstrong

Q5: Multiply two matrices

Q6: Print first N multiples of a number

Q7: Count consonants in a string

Q8: Search for an element in an array

Q9: Check whether a number is a prime palindrome

Q10: Compute the GCD of two numbers

Q11: Count vowels in a string

Q12: Concatenate two strings

Q13: Calculate the perimeter of a rectangle

Q14: Compute the sum of digits of a number

Q15: Calculate the area of a triangle

## Roll No: 1016

Q1: Print the first N odd numbers

Q2: Find the largest of five numbers

Q3: Calculate the perimeter of a square

Q4: Compare two strings

Q5: Compute the sum of digits of a number

Q6: Calculate the area of a rectangle

Q7: Compute the sum of elements in a 1D array

Q8: Compute the GCD of two numbers

Q9: Insert an element at a specific position in an array

Q10: Check whether a number is palindrome

Q11: Subtract two matrices

Q12: Compute the sum of even elements in an array

Q13: Convert meters to centimeters

Q14: Delete an element from an array

Q15: Convert a string to lowercase

## Roll No: 1017

Q1: Search for an element in an array

Q2: Find the smallest of four numbers

Q3: Convert miles to kilometers

Q4: Find the smallest element in a 1D array

Q5: Concatenate two strings

Q6: Check whether a number is palindrome

Q7: Compute factorial using recursion

Q8: Find the largest element in a 1D array

Q9: Convert a string to uppercase

Q10: Compare two strings

Q11: Check whether a number is even or odd

Q12: Check whether a number is strong

Q13: Calculate the area of a rectangle

Q14: Add two matrices

Q15: Convert meters to centimeters

## Roll No: 1018

Q1: Find the largest of three numbers

Q2: Check whether a number is even or odd

Q3: Count vowels in a string

Q4: Find the second largest element in an array

Q5: Print the first N natural numbers

Q6: Calculate the perimeter of a square

Q7: Reverse words in a string

Q8: Insert an element at a specific position in an array

Q9: Find the smallest of three numbers

Q10: Multiply two matrices

Q11: Calculate the area of a triangle

Q12: Check whether a number is a prime palindrome

Q13: Reverse a given string

Q14: Check whether a number is a perfect square

Q15: Calculate the area of a rectangle

## Roll No: 1019

Q1: Calculate the perimeter of a rectangle

Q2: Print the first N even numbers

Q3: Calculate the circumference of a circle

Q4: Find the largest element in a 1D array

Q5: Check whether a number is strong

Q6: Insert an element at a specific position in an array

Q7: Find the smallest of four numbers

Q8: Check whether a number is a prime palindrome

Q9: Search for an element in an array

Q10: Print first N multiples of a number

Q11: Convert Celsius to Fahrenheit

Q12: Compute the product of elements in a 1D array

Q13: Check whether a number is even or odd

Q14: Calculate the perimeter of a square

Q15: Compute the GCD of two numbers

## Roll No: 1020

Q1: Convert a string to uppercase

Q2: Compute the GCD of two numbers

Q3: Compute the LCM of two numbers

Q4: Convert miles to kilometers

Q5: Calculate the perimeter of a square

Q6: Convert kilometers to miles

Q7: Check whether a number is prime

Q8: Convert Fahrenheit to Celsius

Q9: Print the first N even numbers

Q10: Compute the sum of digits of a number

Q11: Find the smallest of three numbers

Q12: Count the number of words in a string

Q13: Find the largest of four numbers

Q14: Concatenate two strings

Q15: Check whether a number is even or odd

## Roll No: 1021

Q1: Print the first N natural numbers in reverse

Q2: Find the smallest of three numbers

Q3: Check whether a number is strong

Q4: Reverse a given string

Q5: Subtract two matrices

Q6: Compute the sum of digits of a number

Q7: Find the largest of five numbers

Q8: Convert all vowels in a string to uppercase

Q9: Count vowels in a string

Q10: Compute the GCD of two numbers

Q11: Check whether a number is palindrome

Q12: Insert an element at a specific position in an array

Q13: Convert a string to uppercase

Q14: Search for an element in an array

Q15: Print the first N even numbers

## Roll No: 1022

Q1: Check whether a number is strong

Q2: Convert all vowels in a string to uppercase

Q3: Convert meters to centimeters

Q4: Calculate the perimeter of a square

Q5: Subtract two matrices

Q6: Multiply two matrices

Q7: Reverse words in a string

Q8: Calculate the perimeter of a rectangle

Q9: Print the first N natural numbers in reverse

Q10: Count the number of words in a string

Q11: Find the largest element in a 1D array

Q12: Calculate the area of a triangle

Q13: Compute the product of elements in a 1D array

Q14: Find the second largest element in an array

Q15: Check whether a number is a prime palindrome

## Roll No: 1023

Q1: Convert all vowels in a string to uppercase

Q2: Insert an element at a specific position in an array

Q3: Calculate the circumference of a circle

Q4: Compute the LCM of two numbers

Q5: Concatenate two strings

Q6: Find the second largest element in an array

Q7: Find the smallest of four numbers

Q8: Print the first N even numbers

Q9: Compute factorial of a number

Q10: Check whether a number is a prime palindrome

Q11: Compute factorial using recursion

Q12: Convert meters to centimeters

Q13: Find the smallest element in a 1D array

Q14: Compare lengths of two strings

Q15: Reverse a given string

## Roll No: 1024

Q1: Check whether a number is perfect

Q2: Compare two strings

Q3: Count consonants in a string

Q4: Compute the sum of elements in a 1D array

Q5: Convert meters to centimeters

Q6: Convert kilometers to miles

Q7: Check whether a number is a perfect square

Q8: Print the first N natural numbers in reverse

Q9: Compare lengths of two strings

Q10: Compute factorial of a number

Q11: Count the number of words in a string

Q12: Reverse words in a string

Q13: Count vowels in a string

Q14: Calculate the perimeter of a rectangle

Q15: Find the largest of five numbers

## Roll No: 1025

Q1: Compute the product of elements in a 1D array

Q2: Check whether a number is palindrome

Q3: Count the number of words in a string

Q4: Convert Celsius to Fahrenheit

Q5: Concatenate two strings

Q6: Check whether a number is even or odd

Q7: Print first N multiples of a number

Q8: Convert meters to centimeters

Q9: Delete an element from an array

Q10: Find the largest of five numbers

Q11: Find the second largest element in an array

Q12: Compute factorial of a number

Q13: Convert a string to uppercase

Q14: Print the first N even numbers

Q15: Search for an element in an array

## Roll No: 1026

Q1: Find the largest of five numbers

Q2: Convert meters to centimeters

Q3: Convert a string to uppercase

Q4: Print the first N natural numbers

Q5: Check whether a number is a perfect square

Q6: Multiply two matrices

Q7: Compare lengths of two strings

Q8: Compute the LCM of two numbers

Q9: Convert a string to lowercase

Q10: Count consonants in a string

Q11: Find the smallest of four numbers

Q12: Compute factorial of a number

Q13: Check whether a number is Armstrong

Q14: Print first N multiples of a number

Q15: Convert Fahrenheit to Celsius

## Roll No: 1027

Q1: Find the largest element in a 1D array

Q2: Find the smallest of three numbers

Q3: Print the first N natural numbers in reverse

Q4: Compute factorial of a number

Q5: Insert an element at a specific position in an array

Q6: Count consonants in a string

Q7: Print the first N even numbers

Q8: Convert Fahrenheit to Celsius

Q9: Convert a string to uppercase

Q10: Find the smallest of four numbers

Q11: Reverse words in a string

Q12: Check whether a number is a prime palindrome

Q13: Check whether a number is even or odd

Q14: Multiply two matrices

Q15: Check whether a number is prime

## Roll No: 1028

Q1: Find the smallest element in a 1D array

Q2: Subtract two matrices

Q3: Check whether a number is perfect

Q4: Multiply two matrices

Q5: Check whether a number is prime

Q6: Print first N multiples of a number

Q7: Convert meters to centimeters

Q8: Print the first N odd numbers

Q9: Find the largest of three numbers

Q10: Find the largest element in a 1D array

Q11: Find the largest of five numbers

Q12: Convert Celsius to Fahrenheit

Q13: Find the smallest of three numbers

Q14: Count the number of words in a string

Q15: Reverse words in a string

## Roll No: 1029

Q1: Check whether a number is a perfect square

Q2: Compare lengths of two strings

Q3: Check whether a number is even or odd

Q4: Check whether a number is a prime palindrome

Q5: Print the first N natural numbers in reverse

Q6: Calculate the perimeter of a rectangle

Q7: Reverse words in a string

Q8: Delete an element from an array

Q9: Insert an element at a specific position in an array

Q10: Search for an element in an array

Q11: Reverse a given string

Q12: Check whether a number is prime

Q13: Compare two strings

Q14: Print first N multiples of a number

Q15: Count vowels in a string

## Roll No: 1030

Q1: Convert kilometers to miles

Q2: Count consonants in a string

Q3: Count vowels in a string

Q4: Calculate the area of a rectangle

Q5: Check whether a number is palindrome

Q6: Check whether a number is a prime palindrome

Q7: Compute the sum of digits of a number

Q8: Multiply two matrices

Q9: Concatenate two strings

Q10: Compute the sum of elements in a 1D array

Q11: Subtract two matrices

Q12: Convert a string to uppercase

Q13: Compare two strings

Q14: Print the first N natural numbers in reverse

Q15: Find the smallest element in a 1D array

## Roll No: 1031

Q1: Check whether a number is Armstrong

Q2: Find the smallest of three numbers

Q3: Compute factorial of a number

Q4: Compute the sum of even elements in an array

Q5: Compare two strings

Q6: Check whether a number is even or odd

Q7: Check whether a number is palindrome

Q8: Check whether a number is prime

Q9: Count the number of words in a string

Q10: Print the first N odd numbers

Q11: Convert kilometers to miles

Q12: Count consonants in a string

Q13: Print the first N even numbers

Q14: Calculate the perimeter of a rectangle

Q15: Convert meters to centimeters

## Roll No: 1032

Q1: Check whether a number is even or odd

Q2: Convert meters to centimeters

Q3: Convert Celsius to Fahrenheit

Q4: Calculate the perimeter of a rectangle

Q5: Check whether a number is Armstrong

Q6: Calculate the area of a rectangle

Q7: Check whether a number is a prime palindrome

Q8: Check whether a number is strong

Q9: Compute factorial using recursion

Q10: Convert miles to kilometers

Q11: Compute the LCM of two numbers

Q12: Find the smallest of three numbers

Q13: Compute the sum of even elements in an array

Q14: Calculate the area of a triangle

Q15: Convert a string to lowercase

## Roll No: 1033

Q1: Check whether a number is prime

Q2: Count the number of words in a string

Q3: Check whether a number is even or odd

Q4: Reverse a given string

Q5: Calculate the area of a triangle

Q6: Find the largest of five numbers

Q7: Calculate the circumference of a circle

Q8: Compute the sum of even elements in an array

Q9: Multiply two matrices

Q10: Check whether a number is strong

Q11: Print the first N natural numbers

Q12: Print first N multiples of a number

Q13: Compute the GCD of two numbers

Q14: Compute the sum of elements in a 1D array

Q15: Subtract two matrices

## Roll No: 1034

Q1: Compute the sum of digits of a number

Q2: Calculate the area of a rectangle

Q3: Count consonants in a string

Q4: Find the second largest element in an array

Q5: Subtract two matrices

Q6: Compute the GCD of two numbers

Q7: Reverse words in a string

Q8: Find the largest of four numbers

Q9: Count the number of words in a string

Q10: Check whether a number is strong

Q11: Add two matrices

Q12: Print the first N natural numbers in reverse

Q13: Find the smallest of four numbers

Q14: Calculate the perimeter of a rectangle

Q15: Check whether a number is a prime palindrome

## Roll No: 1035

Q1: Compute factorial of a number

Q2: Calculate the perimeter of a rectangle

Q3: Compute the product of elements in a 1D array

Q4: Calculate the area of a triangle

Q5: Print the first N even numbers

Q6: Calculate the area of a rectangle

Q7: Print the first N natural numbers

Q8: Compute the GCD of two numbers

Q9: Compare lengths of two strings

Q10: Find the smallest element in a 1D array

Q11: Find the smallest of three numbers

Q12: Convert all vowels in a string to uppercase

Q13: Check whether a number is prime

Q14: Calculate the circumference of a circle

Q15: Find the smallest of four numbers

## Roll No: 1036

Q1: Check whether a number is Armstrong

Q2: Reverse a given string

Q3: Check whether a number is prime

Q4: Convert all vowels in a string to uppercase

Q5: Count the number of words in a string

Q6: Add two matrices

Q7: Check whether a number is even or odd

Q8: Concatenate two strings

Q9: Print the first N natural numbers in reverse

Q10: Convert a string to lowercase

Q11: Count consonants in a string

Q12: Convert kilometers to miles

Q13: Subtract two matrices

Q14: Convert Celsius to Fahrenheit

Q15: Compute the LCM of two numbers

## Roll No: 1037

Q1: Calculate the circumference of a circle

Q2: Find the largest of five numbers

Q3: Check whether a number is a perfect square

Q4: Reverse words in a string

Q5: Multiply two matrices

Q6: Compare lengths of two strings

Q7: Print the first N natural numbers in reverse

Q8: Calculate the perimeter of a rectangle

Q9: Concatenate two strings

Q10: Find the smallest element in a 1D array

Q11: Convert Celsius to Fahrenheit

Q12: Compute the sum of digits of a number

Q13: Convert meters to centimeters

Q14: Print first N multiples of a number

Q15: Find the smallest of four numbers

## Roll No: 1038

Q1: Find the smallest of four numbers

Q2: Print the first N natural numbers

Q3: Concatenate two strings

Q4: Calculate the perimeter of a rectangle

Q5: Print the first N natural numbers in reverse

Q6: Compute the product of elements in a 1D array

Q7: Compute the sum of elements in a 1D array

Q8: Compute the LCM of two numbers

Q9: Convert a string to lowercase

Q10: Add two matrices

Q11: Check whether a number is strong

Q12: Compare lengths of two strings

Q13: Find the largest of five numbers

Q14: Find the smallest of three numbers

Q15: Find the largest of four numbers

## Roll No: 1039

Q1: Print the first N natural numbers

Q2: Check whether a number is Armstrong

Q3: Compute the sum of elements in a 1D array

Q4: Delete an element from an array

Q5: Count consonants in a string

Q6: Print the first N odd numbers

Q7: Calculate the perimeter of a rectangle

Q8: Compare two strings

Q9: Find the largest of four numbers

Q10: Find the largest of three numbers

Q11: Print first N multiples of a number

Q12: Count vowels in a string

Q13: Convert meters to centimeters

Q14: Check whether a number is palindrome

Q15: Compute factorial using recursion

## Roll No: 1040

Q1: Compute factorial of a number

Q2: Calculate the area of a triangle

Q3: Check whether a number is palindrome

Q4: Convert a string to uppercase

Q5: Convert kilometers to miles

Q6: Compute the product of elements in a 1D array

Q7: Compute the GCD of two numbers

Q8: Compute the sum of digits of a number

Q9: Check whether a number is perfect

Q10: Find the largest element in a 1D array

Q11: Reverse a given string

Q12: Insert an element at a specific position in an array

Q13: Convert meters to centimeters

Q14: Count vowels in a string

Q15: Check whether a number is a prime palindrome

## Roll No: 1041

Q1: Convert kilometers to miles

Q2: Check whether a number is even or odd

Q3: Check whether a number is a prime palindrome

Q4: Print the first N natural numbers

Q5: Find the smallest of three numbers

Q6: Print first N multiples of a number

Q7: Calculate the area of a triangle

Q8: Compute factorial of a number

Q9: Calculate the area of a rectangle

Q10: Print the first N natural numbers in reverse

Q11: Find the largest of four numbers

Q12: Check whether a number is prime

Q13: Print the first N odd numbers

Q14: Find the smallest element in a 1D array

Q15: Search for an element in an array

## Roll No: 1042

Q1: Convert all vowels in a string to uppercase

Q2: Find the smallest of four numbers

Q3: Count the number of words in a string

Q4: Search for an element in an array

Q5: Compute the sum of elements in a 1D array

Q6: Print the first N even numbers

Q7: Compute factorial using recursion

Q8: Calculate the circumference of a circle

Q9: Compute the sum of even elements in an array

Q10: Convert a string to lowercase

Q11: Find the smallest of three numbers

Q12: Calculate the perimeter of a square

Q13: Concatenate two strings

Q14: Multiply two matrices

Q15: Convert a string to uppercase

## Roll No: 1043

Q1: Compute the LCM of two numbers

Q2: Convert Fahrenheit to Celsius

Q3: Print the first N natural numbers

Q4: Search for an element in an array

Q5: Reverse words in a string

Q6: Compute the sum of digits of a number

Q7: Compute the GCD of two numbers

Q8: Print first N multiples of a number

Q9: Convert kilometers to miles

Q10: Find the largest element in a 1D array

Q11: Print the first N even numbers

Q12: Compute the sum of even elements in an array

Q13: Compute the sum of elements in a 1D array

Q14: Subtract two matrices

Q15: Convert a string to uppercase

## Roll No: 1044

Q1: Compare lengths of two strings

Q2: Concatenate two strings

Q3: Check whether a number is even or odd

Q4: Subtract two matrices

Q5: Convert Fahrenheit to Celsius

Q6: Check whether a number is a prime palindrome

Q7: Find the largest of five numbers

Q8: Check whether a number is prime

Q9: Compute the GCD of two numbers

Q10: Calculate the perimeter of a rectangle

Q11: Find the largest element in a 1D array

Q12: Add two matrices

Q13: Print the first N odd numbers

Q14: Convert all vowels in a string to uppercase

Q15: Convert Celsius to Fahrenheit

## Roll No: 1045

Q1: Print the first N natural numbers

Q2: Check whether a number is even or odd

Q3: Compute the sum of digits of a number

Q4: Compute the sum of even elements in an array

Q5: Find the second largest element in an array

Q6: Print the first N natural numbers in reverse

Q7: Convert all vowels in a string to uppercase

Q8: Convert a string to uppercase

Q9: Delete an element from an array

Q10: Find the smallest element in a 1D array

Q11: Print the first N even numbers

Q12: Compare lengths of two strings

Q13: Find the largest of five numbers

Q14: Print first N multiples of a number

Q15: Calculate the perimeter of a square

## Roll No: 1046

Q1: Calculate the circumference of a circle

Q2: Convert all vowels in a string to uppercase

Q3: Convert miles to kilometers

Q4: Compute factorial of a number

Q5: Find the smallest of three numbers

Q6: Calculate the area of a triangle

Q7: Print the first N natural numbers in reverse

Q8: Calculate the area of a rectangle

Q9: Check whether a number is perfect

Q10: Compute the sum of elements in a 1D array

Q11: Check whether a number is even or odd

Q12: Print the first N odd numbers

Q13: Print first N multiples of a number

Q14: Check whether a number is palindrome

Q15: Compute the sum of digits of a number

## Roll No: 1047

Q1: Check whether a number is a prime palindrome

Q2: Find the largest of four numbers

Q3: Check whether a number is prime

Q4: Add two matrices

Q5: Convert all vowels in a string to uppercase

Q6: Compute the product of elements in a 1D array

Q7: Compute the sum of even elements in an array

Q8: Compute factorial of a number

Q9: Calculate the perimeter of a square

Q10: Compute the sum of digits of a number

Q11: Find the smallest of three numbers

Q12: Count consonants in a string

Q13: Convert meters to centimeters

Q14: Print the first N natural numbers in reverse

Q15: Find the smallest element in a 1D array

## Roll No: 1048

Q1: Check whether a number is Armstrong

Q2: Convert miles to kilometers

Q3: Find the largest of five numbers

Q4: Concatenate two strings

Q5: Count consonants in a string

Q6: Find the smallest of three numbers

Q7: Find the largest element in a 1D array

Q8: Compare two strings

Q9: Find the largest of four numbers

Q10: Calculate the area of a rectangle

Q11: Convert a string to lowercase

Q12: Count the number of words in a string

Q13: Print the first N natural numbers in reverse

Q14: Check whether a number is palindrome

Q15: Print first N multiples of a number

## Roll No: 1049

Q1: Convert miles to kilometers

Q2: Convert a string to uppercase

Q3: Count the number of words in a string

Q4: Convert Fahrenheit to Celsius

Q5: Find the largest element in a 1D array

Q6: Convert kilometers to miles

Q7: Convert all vowels in a string to uppercase

Q8: Delete an element from an array

Q9: Check whether a number is even or odd

Q10: Compute the GCD of two numbers

Q11: Check whether a number is Armstrong

Q12: Compare two strings

Q13: Convert Celsius to Fahrenheit

Q14: Convert a string to lowercase

Q15: Compute the product of elements in a 1D array

## Roll No: 1050

Q1: Calculate the perimeter of a square

Q2: Convert a string to uppercase

Q3: Find the largest element in a 1D array

Q4: Calculate the perimeter of a rectangle

Q5: Compute the sum of even elements in an array

Q6: Find the smallest of four numbers

Q7: Compute the LCM of two numbers

Q8: Count consonants in a string

Q9: Check whether a number is Armstrong

Q10: Print the first N natural numbers in reverse

Q11: Convert Fahrenheit to Celsius

Q12: Insert an element at a specific position in an array

Q13: Convert miles to kilometers

Q14: Find the largest of five numbers

Q15: Check whether a number is prime

## Roll No: 1051

Q1: Delete an element from an array

Q2: Convert all vowels in a string to uppercase

Q3: Convert kilometers to miles

Q4: Concatenate two strings

Q5: Count the number of words in a string

Q6: Check whether a number is a prime palindrome

Q7: Calculate the perimeter of a rectangle

Q8: Print the first N odd numbers

Q9: Check whether a number is strong

Q10: Calculate the area of a rectangle

Q11: Print first N multiples of a number

Q12: Calculate the area of a triangle

Q13: Check whether a number is perfect

Q14: Find the largest of three numbers

Q15: Insert an element at a specific position in an array

## Roll No: 1052

Q1: Concatenate two strings

Q2: Check whether a number is Armstrong

Q3: Convert kilometers to miles

Q4: Convert Fahrenheit to Celsius

Q5: Compute the LCM of two numbers

Q6: Convert meters to centimeters

Q7: Search for an element in an array

Q8: Print the first N even numbers

Q9: Print the first N natural numbers

Q10: Find the second largest element in an array

Q11: Check whether a number is a perfect square

Q12: Compute the sum of even elements in an array

Q13: Check whether a number is a prime palindrome

Q14: Find the smallest element in a 1D array

Q15: Compute factorial of a number

## Roll No: 1053

Q1: Compute the sum of elements in a 1D array

Q2: Print the first N even numbers

Q3: Find the smallest element in a 1D array

Q4: Convert Fahrenheit to Celsius

Q5: Calculate the area of a triangle

Q6: Count consonants in a string

Q7: Calculate the circumference of a circle

Q8: Concatenate two strings

Q9: Reverse a given string

Q10: Find the largest element in a 1D array

Q11: Print the first N natural numbers

Q12: Reverse words in a string

Q13: Compute the sum of even elements in an array

Q14: Find the smallest of three numbers

Q15: Check whether a number is even or odd

## Roll No: 1054

Q1: Calculate the area of a rectangle

Q2: Print the first N odd numbers

Q3: Concatenate two strings

Q4: Check whether a number is a prime palindrome

Q5: Print first N multiples of a number

Q6: Compute the sum of digits of a number

Q7: Convert all vowels in a string to uppercase

Q8: Find the largest of four numbers

Q9: Find the smallest element in a 1D array

Q10: Count consonants in a string

Q11: Find the largest of three numbers

Q12: Find the largest element in a 1D array

Q13: Compute the GCD of two numbers

Q14: Check whether a number is a perfect square

Q15: Convert meters to centimeters

## Roll No: 1055

Q1: Subtract two matrices

Q2: Compute the GCD of two numbers

Q3: Delete an element from an array

Q4: Calculate the perimeter of a square

Q5: Compute the LCM of two numbers

Q6: Insert an element at a specific position in an array

Q7: Reverse a given string

Q8: Check whether a number is perfect

Q9: Find the largest of three numbers

Q10: Find the largest of five numbers

Q11: Search for an element in an array

Q12: Convert meters to centimeters

Q13: Print the first N natural numbers in reverse

Q14: Find the smallest element in a 1D array

Q15: Check whether a number is strong

## Roll No: 1056

Q1: Concatenate two strings

Q2: Print the first N natural numbers in reverse

Q3: Delete an element from an array

Q4: Convert Fahrenheit to Celsius

Q5: Insert an element at a specific position in an array

Q6: Compute the sum of digits of a number

Q7: Check whether a number is prime

Q8: Calculate the perimeter of a square

Q9: Calculate the perimeter of a rectangle

Q10: Find the second largest element in an array

Q11: Find the largest element in a 1D array

Q12: Search for an element in an array

Q13: Compare lengths of two strings

Q14: Check whether a number is perfect

Q15: Print the first N natural numbers

## Roll No: 1057

Q1: Find the largest element in a 1D array

Q2: Find the smallest of three numbers

Q3: Find the largest of four numbers

Q4: Compute the sum of digits of a number

Q5: Calculate the perimeter of a square

Q6: Check whether a number is prime

Q7: Convert a string to lowercase

Q8: Convert meters to centimeters

Q9: Convert a string to uppercase

Q10: Find the second largest element in an array

Q11: Convert kilometers to miles

Q12: Find the smallest element in a 1D array

Q13: Print first N multiples of a number

Q14: Compare lengths of two strings

Q15: Reverse words in a string

## Roll No: 1058

Q1: Check whether a number is palindrome

Q2: Reverse words in a string

Q3: Calculate the circumference of a circle

Q4: Compute factorial using recursion

Q5: Check whether a number is even or odd

Q6: Compare two strings

Q7: Compare lengths of two strings

Q8: Convert Fahrenheit to Celsius

Q9: Find the second largest element in an array

Q10: Convert miles to kilometers

Q11: Search for an element in an array

Q12: Find the largest of five numbers

Q13: Print the first N even numbers

Q14: Compute the LCM of two numbers

Q15: Check whether a number is prime

## Roll No: 1059

Q1: Delete an element from an array

Q2: Check whether a number is strong

Q3: Count the number of words in a string

Q4: Print the first N odd numbers

Q5: Find the smallest element in a 1D array

Q6: Compute the product of elements in a 1D array

Q7: Multiply two matrices

Q8: Find the largest of three numbers

Q9: Check whether a number is Armstrong

Q10: Check whether a number is perfect

Q11: Compare two strings

Q12: Search for an element in an array

Q13: Calculate the area of a triangle

Q14: Calculate the perimeter of a square

Q15: Compute the sum of even elements in an array

## Roll No: 1060

Q1: Calculate the area of a triangle

Q2: Compute the sum of elements in a 1D array

Q3: Compare two strings

Q4: Calculate the perimeter of a square

Q5: Calculate the area of a rectangle

Q6: Check whether a number is prime

Q7: Print the first N natural numbers

Q8: Compute the product of elements in a 1D array

Q9: Reverse words in a string

Q10: Compare lengths of two strings

Q11: Insert an element at a specific position in an array

Q12: Find the largest of five numbers

Q13: Multiply two matrices

Q14: Delete an element from an array

Q15: Compute the sum of digits of a number

## Roll No: 1061

Q1: Compute factorial using recursion

Q2: Compute the sum of elements in a 1D array

Q3: Reverse words in a string

Q4: Convert Celsius to Fahrenheit

Q5: Find the smallest element in a 1D array

Q6: Insert an element at a specific position in an array

Q7: Compute the product of elements in a 1D array

Q8: Count vowels in a string

Q9: Convert Fahrenheit to Celsius

Q10: Search for an element in an array

Q11: Compare two strings

Q12: Check whether a number is prime

Q13: Compute the sum of even elements in an array

Q14: Check whether a number is palindrome

Q15: Convert a string to uppercase

## Roll No: 1062

Q1: Find the largest element in a 1D array

Q2: Find the smallest element in a 1D array

Q3: Find the smallest of four numbers

Q4: Compare lengths of two strings

Q5: Insert an element at a specific position in an array

Q6: Multiply two matrices

Q7: Print the first N odd numbers

Q8: Calculate the circumference of a circle

Q9: Check whether a number is perfect

Q10: Print first N multiples of a number

Q11: Find the largest of five numbers

Q12: Search for an element in an array

Q13: Check whether a number is Armstrong

Q14: Check whether a number is a perfect square

Q15: Convert all vowels in a string to uppercase

## Roll No: 1063

Q1: Check whether a number is palindrome

Q2: Reverse a given string

Q3: Delete an element from an array

Q4: Check whether a number is even or odd

Q5: Compare lengths of two strings

Q6: Compute factorial of a number

Q7: Compute the sum of elements in a 1D array

Q8: Print the first N natural numbers

Q9: Convert a string to lowercase

Q10: Convert all vowels in a string to uppercase

Q11: Print first N multiples of a number

Q12: Count the number of words in a string

Q13: Find the smallest of four numbers

Q14: Find the largest of three numbers

Q15: Compare two strings

## Roll No: 1064

Q1: Reverse words in a string

Q2: Convert kilometers to miles

Q3: Compute the GCD of two numbers

Q4: Find the smallest of three numbers

Q5: Check whether a number is prime

Q6: Compute factorial using recursion

Q7: Add two matrices

Q8: Check whether a number is palindrome

Q9: Compute factorial of a number

Q10: Calculate the perimeter of a rectangle

Q11: Print the first N natural numbers

Q12: Count consonants in a string

Q13: Insert an element at a specific position in an array

Q14: Print the first N natural numbers in reverse

Q15: Find the smallest of four numbers

## Roll No: 1065

Q1: Check whether a number is strong

Q2: Count vowels in a string

Q3: Subtract two matrices

Q4: Find the second largest element in an array

Q5: Find the largest element in a 1D array

Q6: Find the largest of three numbers

Q7: Print the first N even numbers

Q8: Find the smallest of four numbers

Q9: Compute the sum of digits of a number

Q10: Find the largest of four numbers

Q11: Print the first N natural numbers

Q12: Compare lengths of two strings

Q13: Reverse words in a string

Q14: Compute factorial using recursion

Q15: Compute the product of elements in a 1D array
